

Total Kenya PLC -

STATEMENT

Nairobi, 25th June 2021

During Total Kenya PLC's Annual General Meeting held on 25th June 2021, shareholders voted overwhelmingly to approve the change of the company name from Total Kenya PLC to TotalEnergies Marketing Kenya PLC. The process towards formalising the name change at the Registrar of Companies is the next stage towards actualising the name change.

This decision follows the change of name of its parent company on 28th May 2021 from Total SE to TotalEnergies SE, thereby anchoring its strategic transformation into a broad energy company, committed to producing and providing energies that are ever more affordable, reliable and clean. In tandem with this name change, TotalEnergies is adopting a new visual identity.

"TotalEnergies Marketing Kenya PLC will capitalize on this momentum in which we are all collectively and resolutely sharing, as well as the enthusiasm that is taking us in this new direction. We have already started the rebranding of our first service station : TotalEnergies Limuru Road , as well as our main production sites and our Headquarters in Nairobi" said Olagoke Aluko, Managing Director of the affiliate.
